PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and deploying production-ready web applications using React, Node.js, Python, and Supabase. Proficient in REST API integration, responsive UI design, role-based authentication, and real-time database synchronization. Currently pursuing BCA at Mentor Engineering College (KTU). Strong problem-solving skills with a user-focused approach to building scalable digital solutions.

TECHNICAL SKILLS

Languages:	Python, JavaScript, C, C++
Frontend:	React.js, Tailwind CSS, Responsive Design, HTML/CSS
Backend / Database:	Node.js, Supabase, MySQL, REST APIs, Real-time Sync
Tools & Platforms:	Git, GitHub, VS Code, Vercel, Claude AI
Core Competencies:	Role-Based Access Control, OTP Authentication, UPI Integration, Debugging, Agile Development

PROJECTS

AttendEase

React | Tailwind CSS | Supabase | Vercel

- Built a role-based attendance management system supporting 3 user roles: Institution Admin, Class Teacher, and Subject Teacher.
- Implemented OTP-based authentication, WhatsApp attendance export, and a Dynamic Island notification UI for real-time alerts.
- Deployed on Vercel with real-time Supabase backend sync, reducing manual attendance tracking effort significantly.

E-Vardhakya

React | Face API | Supabase

- Developed an elder care web application featuring real-time face emotion detection and an SOS emergency screen for safety alerts.
- Built bilingual support for Malayalam and English, with daily mood check-ins and automated caregiver notifications.
- Designed as an accessibility-focused solution serving elderly users, prioritizing ease of use and emergency responsiveness.

BillSwift

React | Supabase | UPI Integration

- Created a mobile billing application with full cart management, checkout flow, and UPI QR code generation for seamless payments.
- Implemented a shop management dashboard and sub-user role support, enabling staff to operate under restricted permissions.
- Designed for small businesses and retail shops, streamlining billing operations and reducing checkout time.

EDUCATION

Bachelor of Computer Applications (BCA)

Mentor Engineering College, Muvattupuzha | KTU

2025 – Present | Semester 2

Higher Secondary Education – Computer Commerce

Kerala State Board

2023 – 2025

SSLC

Kerala Education Board

2022 – 2023

ADDITIONAL INFORMATION

Languages: English, Malayalam

Interests: Web Technologies & UI/UX, Tech Hackathons, Content Creation & Social Media
